- RESTful API Integration
- Responsive Web Design
- Material UI
- Shadcn UI
- Webpack & Babel
- Git & GitHub
- Agile & Scrum Methodologies
- Node.js & Modular
- Express.js (Front-End Integration)
- Docker (for Front-End Dev Environments)
- Cross-Browser Compatibility
- Scalable Component Architecture
- Generative AI Integration (UI/UX Features)
- E-Commerce Platforms (Magento)
- AWS & GCP

EXPERIENCE

Senior Frontend Developer / Cloud Clinic Limited - Lagos, Nigeria   *03/2024 - Current*

A healthcare technology company focused on providing digital healthcare solutions

- Designed and developed user-focused web applications using React and Magento, enhancing usability for both healthcare professionals and patients.
- Collaborated with cross-functional teams to implement Magento-based solutions, optimizing UI/UX across digital healthcare platforms.
- Integrated backend services using Node.js and MongoDB to enable secure, seamless data exchange between systems.
- Conducted performance testing, debugging, and optimization, resulting in improved application stability and reduced load times.
- Built modular, reusable UI components and authored technical documentation to support scalable frontend development and knowledge sharing.

Frontend Developer / Traders of Africa - Lagos, Nigeria   *01/2023 - 02/2024*

An e-commerce platform connecting buyers and sellers across Africa

- Developed and maintained responsive, user-centric web applications using React.js and Magento, enhancing user experience and engagement.
- Integrated third-party APIs to extend platform functionality and improve real-time data processing efficiency.

- Spearheaded the migration from legacy frontend code to a modern React-based architecture, improving page load speed and overall site performance.
- Collaborated closely with backend developers to ensure efficient integration of RESTful APIs and seamless client-server communication.
- Conducted regular code reviews, performance testing, and UI/UX improvements to ensure cross-browser compatibility and scalability.

Frontend Developer / Stylish Piazza - Lagos, Nigeria   *01/2021 - 12/2023*

An online retail company specializing in fashion and lifestyle products
- Designed and developed responsive user interfaces for e-commerce platforms, ensuring seamless performance across desktop, tablet, and mobile devices.
- Created reusable front-end components and UI libraries using HTML5, CSS3, and JavaScript to accelerate development and improve code maintainability.
- Implemented cross-browser compatibility and adhered to accessibility standards (WCAG), enhancing user experience for diverse audiences.
- Optimized web application performance by reducing page load times, improving rendering efficiency, and applying best practices in front-end development.
- Collaborated with back-end developers and UX/UI designers to deliver high-quality, scalable web solutions aligned with business goals.

Frontend Developer / Integrated Software Data Services - Remote   *12/2018 - 12/2020*

A software services company providing data integration and IT solutions
- Developed responsive and user-friendly web and mobile applications using React.js and React Native, improving cross-platform functionality.
- Optimized front-end performance by minimizing load times and enhancing UI responsiveness through efficient component structuring and code optimization.
- Collaborated with back-end development teams to integrate RESTful APIs, enabling seamless data retrieval and real-time functionality.
- Applied modern UI/UX design principles to create consistent and accessible user experiences across various screen sizes and devices.
- Participated in Agile development cycles, contributing to sprint planning, code reviews, and front-end feature implementation for client-facing applications.

PROJECTS

- **Cloud Clinic**

https://cloudclinic.ng/
A medical app for Nigeria that allows users to connect with doctors in real-time via React Native.
- **Chicago City Sports**

https://chicagocitysports.com/
An e-commerce app for sports apparel with a focus on user engagement and smooth shopping experiences using React.
